- English(C2)
- Greek(C2)
- Albanian(C1)
- Spanish(B1)

EDUCATION

FULLSTACK SOFTWARE DEVELOPMENT BOOTCAMP

App Academy | 2019-2020

- Learnt new modern frameworks and technologies.
- Built multiple fullstack projects that helped me better understand how multiple technologies work together.

COMPUTER SOFTWARE DEVELOPMENT,

Institute of Vocational Training of Aigaleo | 2015 - 2018

- Studied Computer Science Concepts and Software development in depth.
- Worked with multiple programing languages, frameworks and technologies.
- Learnt how to operate in a team and how to collaborate with my classmates to complete demanding projects.

PROJECTS

I have created multiple projects in the past and I'm always working on something new. A lot of my projects are Full stack CRUD applications that demonstrate my ability of working with multiple technologies, utilizing external APIs, creating APIs, incorporating external libraries into my own projects, managing requests asynchronously, working with both relational & non-relational databases and managing the state on the client side . Each project includes a detailed documentation and is deployed online and ready to be viewed live. You can find most of my work on my Github page (github.com/ArmantoArisRoutsis) and on my Portfolio Website under the work section(routsis-armanto.web.app).

WORK EXPERIENCE

FRONT END SOFTWARE DEVELOPER

Woodsense| February 2021- Present(Internship)

Stack: React, Hooks, Sass, Bootstrap, Jest, React-testing-library

- Enhanced user experience and improved responsiveness and the UI.
- Improved the functionality as well as expanding the capabilities of multiple features of the main application.
- Implemented new, highly efficient features from scratch.
- Wrote the majority of the front-end tests using Jest and React-testing-library.

FRONT DESK RECEPTIONIST & RESERVATION DEPARTMENT

Athens Hawks Hotel | May 2019-Present

- Checked visitors in and out and made sure to always provide the best experience possible.
- Handled booking Extranets, managed future reservations, cancellations, refunds and disputes.

IT & TELECOMMUNICATIONS DEPARTMENT

Hellenic Army / September 2018 - May 2019 (Millitary Service)

- Assisted 100+ people per day, providing successful solutions in a polite manner.
- Organized and sorted documents and entered specified information into a database.
- Perfectly communicated with other soldiers and my superiors.

IT DEPARTMENT & TECHICAL SUPPORT

Municipality of Korydallos / January 2018 - August 2019 (Internship)

- Provided thorough software and hardware support and problem resolution for staff of other departments .
- Worked on improving multiple websites, applied my skills and wrote clear documentation about the changes and additions I implemented.
